

North Florida/South Georgia VHS Pharmacy Residency Program

The pharmacy residency program consists of ASHP-accredited postgraduate year one (PGY1) programs in Gainesville, Lake City and Tallahassee; and postgraduate year two (PGY2) programs (ambulatory care, critical care, palliative care/pain management, psychiatry and pharmacy administration) based in Gainesville.

The primary practice site during the residency for most of the programs is the Gainesville VAMC. Exceptions are three PGY1 residents at the Lake City VAMC and one PGY1 resident at the Tallahassee Outpatient Clinic. Most residents will have learning experiences scheduled at facilities other than their primary site during the course of the year.

There is ample opportunity to be involved in patient care, education, management and research. Residents are required to complete a research, clinical or administrative project and are encouraged to present at a professional meeting and required to submit a manuscript suitable for publication by the end of the residency.

North Florida/South Georgia VHS

The North Florida South Georgia Veterans Health System is a comprehensive and integrated health care system. We offer primary health care services as well as highly specialized, technologically advanced clinical care. The system supports teaching and research programs through its affiliations with the University of Florida Health Science Center and other colleges and universities.

The Gainesville VAMC campus includes a 250-bed inpatient facility and an outpatient center with primary care and specialty clinics. The Lake City VAMC includes a 40 bed inpatient facility, more than 200 long term care beds, and an outpatient center with primary care as well as specialty clinics. The system also contains three outpatient clinics in Jacksonville, Tallahassee, and The Villages that provide primary care as well as specialty services including having a pharmacy on-site. There are also several smaller community based outpatient clinics that provide primary care and mental health services.
