Residency Description

The Veterans Affairs Medical Center (VAMC) in West Palm Beach offers a PGY2 Pharmacy Residency in Pain Management and Palliative Care as a one year post PGY1 pharmacy residency program designed to provide the resident with advanced knowledge, expertise, common skills, and abilities required to provide pain management and palliative care. In addition, the program provides exposure to the development of pain related policies within the Department of Veterans Affairs. The ultimate goal of the program is to enhance the resident's competence and skills as a productive member of the Health Care Team and to obtain an in-depth working knowledge of pain management and palliative care in clinical and administrative pharmaceutical practice.

WPB VAMC Pain Program

- The pain program consists of an interdisciplinary team which includes the following:
 - Pharmacists
 - Anesthesiologist
 - Physiatrist
 - Pain Psychologist
 - Acupuncturist
 - Chiropractor
 - Physical and Occupational Therapists
 - Nursing Personnel
- The resident will work as an active member of this interdisciplinary team and will gain experience in all aspects of pain management and treatment modalities including pharmacological and non-pharmacological approaches to pain management.
