The mission of the VA Ann Arbor Healthcare System Pharmacy Service is to provide high quality pharmaceutical services that promote the safe, effective, ethical and efficient use of medication in veterans.

VA Ann Arbor Healthcare System

Pharmacy Practice Residency

with an emphasis on
Ambulatory Care

The City of Ann Arbor

A leafy midwestern setting where folks from around the globe always find plenty to do.

The VA Healthcare System

Programs in medicine, surgery, and mental health, with 107 acute care and 45 extended care beds

The Curriculum

Plenty of fulfilling patient contact keeps residents focused on the human side of the profession.

Welcome to the twin cities of Ann Arbor and Ypsilanti, Michigan! Home to the University of Michigan, Eastern Michigan University and Washtenaw Community College, the college atmosphere heavily influences the combined populations of close to 150,000. The Ann Arbor and Ypsilanti area is a rare combination of a small town atmosphere with big city sophistication.

There's always something to do—college athletics, Blues and Jazz Festival, the Folk and Film Festivals, Ann Arbor Art Fair, the Summer Festivals and many ethnically diverse restaurants.

The VA Ann Arbor Healthcare System (VAAHS) provides integrated, high quality, cost-effective primary and tertiary healthcare to veterans residing in lower Michigan and northwestern Ohio. VAAHS currently provides patient care in four locations: Ann Arbor, Flint, Jackson, Michigan and Toledo, Ohio.

VAAHS is a member of Veterans Integrated Network 11, which encompasses seven VA medical centers in Michigan, Indiana, and East Central Illinois. Ann Arbor is the home of the VISN 11 Network offices and the National Center for Patient Safety.

The VA Pharmacy Service has strong affiliations with the University of Michigan (a mile away), University of Toledo and Ferris State University.
