# RESIDENCY PROGRAM

## DESCRIPTION

The PGY2 Ambulatory Care Residency at the Lexington VA Medical Center is a one-year specialty residency designed to develop a clinical specialist with expertise in ambulatory care. The residency program includes training in a variety of pharmacist-managed and multidisciplinary clinic settings at both the Lexington VA Medical Center and the University of Kentucky Medical Center. The resident will also participate in administrative and clinical development projects, as well as conduct a research project. Teaching opportunities include lecturing and facilitating teaching labs at the UK College of Pharmacy, as well as precepting pharmacy students. By completing this comprehensive training program, the resident will be equipped with excellent leadership and clinical skills and prepared to practice as a proficient, well-rounded clinical pharmacy specialist in an ambulatory care setting.
