STIPEND | BENEFITS

The Veterans Health Administration sets annual residency stipends (currently \$42,350) and benefits for all VA residency programs. Each resident is offered 13 days each of vacation and sick leave/family care, 10 paid federal holidays, and a health care benefits package. Locally, residents are also given educational leave with pay and travel support to attend and present at the ASHP Midyear Clinical Meeting and SERC.

PGY-1 Residency

**Durham VA
Medical Center**
508 Fulton Street
Durham, NC 27705

The Durham VA Medical Center (DVAMC) is a 274-bed tertiary care referral, teaching and research facility affiliated with the University of North Carolina Eshelman School of Pharmacy, Campbell University College of Pharmacy and Health Sciences, and the Duke University School of Medicine. The Medical Center provides general and specialty medical, surgical, psychiatric inpatient and ambulatory services, and serves as a major referral center for North Carolina, southern Virginia, northern South Carolina, and eastern Tennessee. In addition, it serves as a referral center for high-risk open-heart surgery cases, angioplasty, and hemodynamic cardiac catheterization. The Medical Center is committed to the needs of the Veteran, as demonstrated by the research, education and clinical practice programs available throughout the institution.

Program Description

The ASHP Accredited PGY-1 Residency at the Durham VAMC offers a rewarding and challenging experience designed to refine skills necessary to become an independent practitioner. With an emphasis in primary care, the Resident will have the opportunity to become an integral member of the healthcare system to provide complete and detailed pharmacotherapeutic interventions to improve patient care services. As a member of this healthcare team, the Resident will work in a multi-disciplinary environment that provides active learning, instruction, mentoring and evaluation to develop and enhance pharmaceutical care.

Start Date: July 1

Accreditation

The Residency Program was originally accredited by ASHP as a pharmacy practice residency in 1994. The program has been reaccredited since then, most recently in October 2006.

Match ID# 185913

Goals and Objectives

The purpose of the Residency Program is to develop competent well-rounded clinical pharmacy practitioners. The Residency Program will provide opportunities for the Resident to enhance his/her knowledge, skills, and abilities to effectively provide pharmaceutical care services in many different patient care environments. In addition, the Resident will improve his/her communication skills with other healthcare providers and patients, strengthen drug information skills, learn to promote cost effective drug therapy, and nurture a commitment to lifelong learning.

Educational Affiliations

The Durham VAMC is a teaching institution affiliated with the Duke University School of Medicine and serves as a training site for pharmacy students from Campbell and UNC Schools of Pharmacy.

Practice Areas

Required Rotations:

Ambulatory Care
