

North Florida/South Georgia Veterans Health System

PGY2 Critical Care Residency Program

**For more information
please visit our website**

<https://www.northflorida.va.gov/careers/pharmacy/>

The residency program participates in the National Matching System and PhORCAS for the application process. This residency site agrees that no person at this site will solicit, accept or use any ranking-related information from any residency applicant.

CLINICAL TRAINING SITE

The primary training site for this program is the Malcom Randall VA Medical Center in Gainesville, a tertiary academic medical center. The medical center has eighteen medical ICU beds and fourteen surgical ICU beds. The facility's primary academic affiliation is with the University of Florida.

PURPOSE

The PGY2 Critical Care Pharmacy residency program builds on Doctor of Pharmacy (Pharm.D.) education and PGY1 pharmacy residency programs to contribute to the development of clinical pharmacists in the specialized areas of critical care. The PGY2 Critical Care Pharmacy residency provides residents with opportunities to function independently as practitioners by conceptualizing and integrating accumulated experience and knowledge and incorporating both into the provision of patient care or other advanced practice settings. Residents who successfully complete this accredited PGY2 pharmacy residency are prepared for advanced patient care, academic, or other specialized positions, along with board certification.

REQUIRED LEARNING EXPERIENCES

Required Rotational Learning Experiences:
