

LEXINGTON VA HEALTH CARE SYSTEM

The Lexington Veterans Affairs Health Care System is a fully accredited, two-division, tertiary care medical center with an operating complement of 199 hospital beds. Acute medical, neurological, surgical and inpatient psychiatric services are provided at the Troy Bowling campus, located adjacent to the University of Kentucky Medical Center. Other available services include: emergency care, medical-surgical units, ICU, progressive care unit, cardiac cath lab, ambulatory surgery, OR/PACU, hemodialysis, medicine specialty clinics, surgery specialty clinics, and outpatient specialty care.

The Franklin Sausley campus, located five miles from the Troy Bowling Campus, offers outpatient mental health services as well as residential post-traumatic stress disorder and substance use disorder treatment. Community Living, respite services and hospice care are also located at this location. Primary care clinics as well as several ambulatory specialty clinics; optometry, dentistry, podiatry, and women's health are housed at the Sausley Campus.

**PGY1 Pharmacy
Residency**

Lexington, KY

The PGY1 pharmacy practice residency program is a one-year, full-time residency program accredited by ASHP. The PGY1 builds on Doctor of Pharmacy (Pharm.D.) education and outcomes to contribute to the development of clinical pharmacists responsible for medication-related care of patients with a wide range of conditions, eligible for board certification, and eligible for postgraduate year two (PGY2) pharmacy residency training.

Clinical, operational, and educational aspects of pharmacy practice are emphasized during this training experience. Residents will complete rotations in ambulatory care, internal medicine, geriatrics, primary care, and anticoagulation. Longitudinal experiences are integrated into the program, including pharmacist coordinated clinics, (e.g., mental health, hepatitis c and pharmacotherapy clinics), formulary management and administration. Other opportunities may be available based on resident interest. Residents will complete and present a primary research project. They will also participate in the UK College of Pharmacy teaching certificate program, which incorporates didactic lecturing, small group/lab facilitation and precepting Doctor of Pharmacy students on clerkship rotations .
