

Population Health Management & Data Analytics PGY2

Program Description

Goal:

To develop clinically proficient healthcare data analysts who will improve the quality and outcomes of patient care services. The program promotes the integration of information technology, informatics, and data analysis with the practice of evidence-based medicine and process improvement.

Required Rotation Experiences:

- Population-Based Health Care
- Clinical Data Management and Analytics
- Quality Improvement or Research Project
- Leadership and Management
- Teaching, Education, and Dissemination of Knowledge
- Pharmacy Benefit Design and Formulary Management

COME EXCEL WITH US!

ABOUT US:

This program was established and accredited in 2013. We have the most experience in training residents in this field, with many past program graduates serving as current preceptors. We are committed to promoting diversity, equity, and inclusion (DEI) within our organization.

The VA Sierra Pacific Network (VISN 21) serves over 460,000 veterans and includes eight VA Medical Centers across Nevada, Northern California, Hawaii and the Philippines.

The PGY2 residents work in collaboration with interdisciplinary VISN staff to provide evidence-based care to our Veteran population. Residents will get broad networking opportunities and exposure by learning from PBM Data and Program Managers and Clinical Pharmacy Practitioners located throughout VISN 21 and Nationally.

Residents will be physically located in Reno, NV at the VA Sierra Nevada Health Care System.

HOW TO APPLY:

Positions Available: Two (2) Residents

Application must be submitted by January 5th

Match ID #: 690281

All application materials should be submitted via
