Watson Pharmaceuticals Initiated an Urgent Drug Recall of Infed (Iron Dextran) Inj 50mg/mL Due to Potential for Precipitate Formation

- On March 16, 2009, Watson Pharmaceuticals issued an Urgent Drug Recall for INFED (Iron Dextran) 50mg/mL due to the possibility of precipitate formation in the injection solution.
- This is a RETAIL level recall.
- Particulate matter in the injection solution becomes a risk if administered intravenously.
- The following lot numbers are being recalled:

Product Code	Product Description	NDC	Lot Number's
430-1228	Infed (Iron Dextran) Inj 50mg/mL 10/bx	52544093102	06K110A, 06L010A, 06L030B, 06L050A, 06L060A, 06L110A, 06L120B, 06L140A, 06M140A

- Return all remaining product at the facility/CMOP level with the affected lot number to McKesson, NOT as instructed in the product recall documents. Please inform your Facility Recall Coordinator when completed.
- Determine whether the affected lot numbers (refer to lot numbers provided above) were dispensed to any patient(s) for home administration.
- If an affected lot was dispensed to a patient(s) for home administration, then:
 - Identify the patient(s).
 - Contact patient(s) who may have received the affected product for home administration by any appropriate method.
 - A sample letter can be found at:
<http://vaww.national.cmop.va.gov/PBM/Other%20Documents%20and%20Resources/Recall%20Patient%20Letter%20Template.doc>.
 - This template can be altered according to site-specific needs.
 - Provide patient(s) with instructions on the following:
 - How to obtain a new supply of medication.
 - How to return the medication being recalled to the pharmacy.
 - To continue taking the medication with the affected lot number until they receive a new supply of iron dextran. When correct medication is received, patient should begin taking the new medication and return the recalled supply as instructed.
- Report any adverse reactions experienced with the use of this medication to the VA ADERS program.
- Refer to https://www.oncologysupply.com/content/oncsupply/cms/files/Watson167V_Infed_Recall.pdf for further details regarding this urgent drug recall.

ACTIONS:

- **Facility Director** (or physician designee): Report completion of actions to the VISN Director.
- **Facility COS:** Forward this document to all appropriate providers who prescribe this agent (e.g., **primary care providers, heme-onc providers, and renal specialists**, including contract providers, etc.). In addition, forward to the Associate Chief of Staff (ACOS) for Research and Development (R&D). Forward to other VA employees as deemed appropriate. Report completion of actions to the Facility Director.
- **ACOS for R&D:** Forward this document to Principal Investigators (PIs) who have authority to practice at the facility and to your respective Institutional Review Board (IRB).
- **VISN Directors:** Within 10 business days of receipt (due 04/16/2009), communicate to PBM/VAMedSAFE that all actions have been completed via the Feedback tool: http://vaww.national.cmop.va.gov/PBM/visn_drug_recalls_alerts/default.aspx.
