

PGY1 PHARMACY RESIDENCY PROGRAM

The Healthcare System

The Southern Arizona VA Healthcare System (SAVAHCS) has provided comprehensive, world class health care to Veterans for over ninety years. SAVAHCS is an integrated Veteran's Affairs health care system consisting of an over 250-bed hospital, multiple primary care and specialty clinics, two urban community outpatient clinics, and five community outpatient clinics in Tucson's outlying areas, serving over 50,000 Veterans annually.

A wide range of inpatient and primary care services are provided in the medical center including acute care medicine, primary care, surgery, neurology, infectious diseases, nephrology, endocrinology, gastroenterology, rheumatology, pulmonary, cardiology, oncology, mental health, and emergency medicine. SAVAHCS is a cardiac referral center for the Southwest Region. The Pharmacy Service is a technology and patient safety leader assisted by the extensive use of robotics and automation.

SAVAHCS has a strong affiliation with the University of Arizona allied healthcare profession programs. Students and residents from many disciplines, including pharmacy students from several schools of pharmacy, are trained at SAVAHCS each year.

The SAVAHCS Pharmacy Service Line provides progressive clinical services to the medical center with approximately 130 pharmacy staff members, including more than 30 Clinical Pharmacy Specialists in a variety of practice settings.

Residency Goals and Objectives

The purpose of the SAVAHCS PGY1 pharmacy residency program builds on Doctor of Pharmacy (Pharm D.) education and outcomes to contribute to the development of clinical pharmacists responsible for medication –related care of patients with a wide range of conditions, eligible for board certification, and eligible for postgraduate year two (PGY2) pharmacy residency training. In addition, the goals of the residency program are to train pharmacists to investigate therapeutic problems in a scientific manner, and enhance verbal and written communication skills. The residents are expected to provide care to a wide range of patients, become leaders in the medication use process, manage clinical practice, function competently and in partnership with other providers, and teach at an appropriate level when the residency is completed.

Program Description

The 12-month accredited residency program accepts up to eight PGY1 residents and is designed to provide ongoing clinical pharmacy activities while promoting the individual resident's needs. The program provides clinical experience with a broad range of patients and disease states in various rotation settings, while working collegially with physicians and nurse practitioners. During the year, each resident gives presentations, such as patient management conferences, in-services to nurses and physicians, journal clubs, and an Accreditation Council for Pharmacy Education (ACPE) accredited one-hour continuing education presentation. A research project is required; each resident presents a poster outlining research hypothesis & methods and the completed project at a regional meeting.

Monthly Experiential Sample Schedule

July-November	Orientation, Primary care, Acute care medicine (2), Pharmacy Operations, Elective
December	CE/Research project and ASHP Midyear Conference
January-June	Critical Care, Acute care medicine (2), Primary care, Electives (2)

Longitudinal Experiential Activities

Longitudinal experiences throughout the residency include primary longitudinal clinic (1/2 day weekly), anticoagulation, and several administrative activities. Residents staff an average of one weekend each month. Staffing consists of two residents working together to perform the clinical and distributive functions.

Elective Opportunities

Residents may choose three electives during the year. The elective time is used to tailor specific interests of the resident within the training program. Common electives are surgery, oncology, pain management, specialty primary care, cardiology, critical care, mental health, infectious disease, emergency medicine, primary care, acute care medicine, academia (e.g. with the University of Arizona College of Pharmacy), geriatrics, and administration elective. Off-site opportunities are also available for those who are licensed in the state of Arizona.

Benefits

The residency stipend is \$41,821 and includes full federal healthcare benefits. Residents will accumulate 13 days of paid vacation time, 13 days of paid sick time, and have 10 Federal holidays per year.

Qualifications

- United States citizenship
- Doctor of pharmacy degree from an American Council on Pharmaceutical Education accredited school of pharmacy
- Pharmacist licensure in any state in the United States of America
- National Matching Service and Pharmacy Online Residency Centralized Application Service (PhORCAS) registration

*Application Requirements:

All application materials are due by January 2nd, at 11:59 p.m. Eastern Standard Time.

The SAVAHCS PGY1 Residency program participates in the Pharmacy Online Residency Centralized Application Service (PhORCAS). Please refer to both the ASHP and SAVAHCS PGY1 websites for details. Incomplete applications are not considered for review.

In addition to the PhORCAS application standard requirements, there are additional requirements for SAVAHCS that reference writers must complete:

Each reference must provide comments for a minimum of 10 of the "Characteristics Evaluated" on the PhORCAS Standardized Reference form **PLUS** either complete the first 3 narrative comments on the PhORCAS form or provide a traditional letter of reference that addresses the areas listed in the narrative questions. **These additional requirements must be communicated by the applicant to their references.**

Candidates who are not invited to interview are notified no later than January 30th.

This residency site agrees that no person at this site solicits, accepts, or uses any ranking-related information from any residency applicant.
