### PGY2 Pharmacy Residency Programs

PGY2 pharmacy residency programs build on Doctor of Pharmacy (Pharm.D.) education and PGY1 pharmacy residency programs to contribute to the development of clinical pharmacists in specialized areas of practice. PGY2 residencies provide residents with opportunities to function independently as practitioners by conceptualizing and integrating accumulated experience and knowledge and incorporating both into the provision of patient care or other advanced practice settings. Residents who successfully complete an accredited PGY2 pharmacy residency are prepared for advanced patient care, academic, or other specialized positions, along with board certification, if available.

### Program Objectives

- Develop clinical skills necessary to provide safe and effective pain management.
- Demonstrate effective verbal and written communication skills.
- Effectively integrate with interprofessional teams.
- Develop leadership and management skills.
- Provide effective education to patients and other health care professionals.
- Conduct quality improvement study and/or medication use evaluation.

### Core Rotations

- Orientation
- Intensive Pain Rehabilitation Program
- Pain Pharmacist Telephone Clinic
- Integrated Pain Team
- Acute Pain
- Palliative Care
- Geriatrics
- Prescription Opioid Safety Team/Addiction
- Mental Health

### Longitudinal Experiences

- Residency Project
- Specialty Care Access Network - Extension for Community Health Care Outcomes (SCAN-ECHO)
- Pharmacy Pain E-Consults/ Non-Formulary Drug Requests

### Elective Rotations

- Hematology and Oncology
- Parkinson’s Disease and Movement Disorder clinic
- Home-Based Primary Care

### Team

Learn from an interprofessional team including:

- Pharmacists
- Physicians
- Nurse Practitioners
- Clinical Psychologists
- Anesthesiologists
- Psychiatrists
- Physical Therapists
- Occupational Therapists
- Dieticians
- Nurses
- Chaplains

The resident will work as an active member of interprofessional teams and gain experience in all aspects of pain management including pharmacological and non-pharmacological approaches. This program emphasizes team-based care to provide optimal therapy to improve health outcomes.

### Conferences & Seminars (optional)

- American Society of Health System Pharmacists (ASHP) Midyear Clinical Meeting
- California Society of Health System Pharmacists (CSHP) Seminar
- Western States Residency Conference
- PainWeek Conference

*Due to budget constraints, VA San Francisco cannot guarantee travel funding for residents.*
