The Robert J. Dole VA Medical Center, located in Wichita, KS, will be accepting its first cohort of residents for the 2022-2023 year. We serve veterans at our main medical center located in Wichita, KS and at our community based outpatient clinics located in western and southern KS. Our facility promotes excellence through interprofessional collaboration and dedication to being a high reliability organization.

Graduates of this pharmacy residency program will have great knowledge of the inpatient, ambulatory and administrative pharmacy practice areas.

Many of our highly trained clinical pharmacists and clinical pharmacist practitioners are board certified. Our preceptors are dedicated to teaching; many are currently offering robust student rotations as preceptors for both the University of Kansas and Creighton University pharmacy schools.
