ABOUT THE GULF COAST VETERANS HEALTH CARE SYSTEM

Gulf Coast Veterans Health Care System consists of a Veterans Health Administration facility in Biloxi, Mississippi, with outpatient clinics in Mobile, Alabama; and Eglin, Pensacola and Panama City, Florida. The health care system serves the seven counties along the Mississippi Gulf Coast, the four counties along the Alabama Gulf Coast and the seven counties along the Florida Panhandle.

Gulf Coast Veterans Health Care System is a tertiary care facility. It is a teaching hospital, providing a full range of patient care services with state-of-the-art technology, education and research.

Gulf Coast Veterans Health Care System is privileged to serve over 70,000 Veterans. Comprehensive health care is provided through primary care, medicine, surgery, acute care/ICU, psychiatry, psychology, oncology, cardiology, dentistry, geriatrics, extended care, palliative/hospice care, physical rehabilitation and blind rehabilitation.

Gulf Coast Veterans Health Care System also provides support to readjustment counseling centers and VA National Cemeteries along the Gulf Coast.

PURPOSE

The purpose of the Gulf Coast Veterans Health Care System PGY-1 pharmacy residency program is to build on Doctor of Pharmacy (Pharm.D.) education and outcomes to contribute to the development of clinical pharmacy specialists responsible for medication-related care of patients with a wide range of conditions, eligible for board certification, and eligible for postgraduate year two (PGY2) pharmacy residency training. The program prepares pharmacist clinicians for patient care positions in acute care and ambulatory care settings as well as positions in postgraduate year two (PGY-2) residency or fellowship. Residents will be provided the opportunity to accelerate their growth beyond entry-level professional competence in patient-centered care, pharmacy operational services, and to further the development of leadership skills that can be applied to any practice setting.

There is ample opportunity to be involved in patient care, education, management and research. Residents are required to complete a research project, present it at a professional meeting and submit a manuscript suitable for publication by the end of the residency.

Residents also have the opportunity to participate in the Teaching Certificate Program offered through Auburn University's Harrison School of Pharmacy.

PGY-1 PHARMACY PRACTICE

The residency program is a PGY-1 Pharmacy Practice residency. It is a 12-month program consisting of longitudinal experiences in Primary Care, Pharmacy Practice, Pharmacy Administration and Research.

Additional required rotational learning experiences include:

- Primary/Ambulatory Care
- Adult/Internal Medicine
- Home-based Primary Care
- Geriatrics/Community Living Center
- Acute Mental Health/Outpatient Mental Health Clinics
- Psychosocial/Mental Health/Substance Abuse Residential Rehabilitation Program

Rotational electives available include:

- Additional experience in one of the required rotations
- Specialty Clinic (Hepatitis C)
- Antibiotic Stewardship/Infectious Disease
- Opioid Stewardship/Pain Management Team
- Acute Psychiatry/Inpatient Psychiatry
- Primary Care at the Joint Ambulatory Care Center (Pensacola, Florida; lodging on your own)
- Drug Information
- National Academic Detailing
- National VA Med Safe
