 - Hepatology, HIV, Oncology, Cardiology, Pain Management, & Endocrinology
 - Anticoagulation Management

Fayetteville
North Carolina

Residency Program

The PGY-1 Pharmacy Residency Program is housed within both the main hospital facility as well as the new, state-of-the-art Health Care Center (HCC), which is just a short drive from the main campus. The HCC provides outpatient services in primary care, specialty care, day surgery, audiology, radiology and pharmacy.

Benefits:

- Competitive annual stipend
- 13 accrued annual leave days
- 13 accrued annual sick days
- 10 paid Federal Holidays
- Healthcare benefits package

Resident activities include:

- Journal Clubs & Case Presentations
- Topic discussions with pharmacy students, residents, and preceptors
- Staffing both inpatient and outpatient
- Involvement in P&T Committee meetings
- Precepting pharmacy students
- Preparing and presenting ACPE accredited CE programs at the local facility and with regional residents
- Quarterly newsletter publications
- Various in-service presentations to staff
- Optional teaching certificate opportunity

Program Structure

The PGY-1 Program is designed to provide the resident with 4 core experiences along with longitudinal experiences throughout the year-long program. Residents are also required to complete 2 elective experiences.

Longitudinal Rotations:

- Drug Informatics & Project Development
- Formal Education
- Pharmacy Management
- Residency Project
- Inpatient & Outpatient Staffing

Core Experiences:

- PACT/Anticoagulation Management
- Psychiatry (Inpatient & Outpatient)
- Acute Care/Urgent Care
- Geriatrics or Home Based Primary Care

Potential Elective Experiences:

- Infectious Disease
- Diabetes/Endocrinology
- Women's Health
- Hepatology
- Hematology/Oncology
- Geriatric Ambulatory Care
- Pain Management
