About Us

Grand Island

With a population of about 50,000, Grand Island is Nebraska’s fourth largest city. While it boasts a rural population, it is only about 90 minutes from Lincoln, the state’s capital. Grand Island is home to the Nebraska State Fair and many hotels, bars and restaurants. The Railside area is committed to promoting the brick-streets of downtown as a destination for business, culture and entertainment. There are many outdoor activities available as well.

The Grand Island VA Medical Center

VA Nebraska-Western Iowa Health Care System (NWIHCS) is an integrated healthcare system comprised by Omaha, Lincoln and Grand Island parent facilities, in addition to five Community-Based Outpatient clinics (CBOC’s). The Grand Island VA Medical Center is a rural location providing service to over 11,000 Veterans in central and western-Nebraska. Pharmacy involvement in the clinical setting is well-developed, going back nearly 30 years. The facility has three primary care clinics with 2-4 providers per clinic. Several specialties are on site as well: ortho, radiology, dermatology, urology, respiratory, eye and dental clinics. The Community Living Center (CLC) is where patients receive step-down care after discharging from more acute care settings. The CLC also serves our Veterans receiving hospice or palliative care. The Substance Abuse Residential Recovery Treatment Program (SARRTP) provides a 30-day inpatient rehabilitation program for alcohol and substance abuse.

PHARMACY
PGY-1 Residency
Grand Island Pharmacy Residency Program

Program Purpose Statement

PGY1 pharmacy residency programs build on Doctor of Pharmacy (Pharm.D.) education and outcomes to contribute to the development of clinical pharmacists responsible for medication-related care of patients with a wide range of conditions, eligible for board certification, and eligible for post-graduate year two (PGY2) pharmacy residency training.

Program Overview

Established in 2005, our ASHP-accredited PGY-1 program accepts three residents each year. Residents will experience increased autonomy in caring for geriatric patients in a rural setting. Residents will participate in rural health interdisciplinary team meetings monthly as well as learn how to care for veterans using the patient-centered medical home model. The program is flexible to meet the needs and interest of our trainees. Residents may elect to obtain a teaching certificate through Creighton University’s online program.

Core Learning Experiences

- Anticoagulation (-1, -2)
- PACT/MTM (-1, -2, -3)
- Geriatrics/CLC (-1, -2)
- Management

Elective Learning Experiences

- Internal Medicine (Omaha VA, as available)
- Home-Based Primary Care
- Infusion/Oncology Clinic
- Mental Health

Longitudinal Experiences

- Teaching and Precepting
- Inpatient and Outpatient Staffing
- Medication Utilization Evaluation
- Pharmacy Administration
- Quality Improvement or Research Project
