PGY2 Psychiatric Pharmacy Residency

ASHP-Accreditation Pending

The Raymond G. Murphy VA Medical Center is a Level 1 tertiary referral center with a 24-hour Emergency Room located in Albuquerque, New Mexico, the heart of the Land of Enchantment. As a teaching institution, the medical center is affiliated with the University of New Mexico and the Central New Mexico Community College. The medical center is authorized to operate a total of 310 beds, which includes 26 acute adult psychiatric beds (a geriatric psychiatric unit scheduled to open May 2013), and residential treatment programs in Albuquerque and Gallup. Community based outpatient clinics (CBOCs) operate in several locations throughout the state.

Residency Purpose

The purpose of this PGY2 Psychiatric Pharmacy Residency is to produce a highly-skilled practitioner able to provide mental health direct patient care in both inpatient and outpatient settings. The practitioner will be competent in patient-centered pharmaceutical care for acute care and ambulatory patient populations, which includes being knowledgeable in pharmacy operational services. The resident receiving a certificate will be prepared to accept any mental health patient care pharmacy position, especially within the Veterans Affairs Health Care System. The resident will also be prepared to serve as an adjunct faculty or pursue further training in psychiatric pharmacy practice or research.

Direct Patient Care Opportunities

Inpatient Populations

- Acute Adult Psychiatry
- Geriatric Psychiatry
- Residential Treatment Programs, including substance abuse, PTSD, domiciliary
- Other practice settings can be arranged as available

Activities in these areas include team rounds with physicians/medical residents & students, drug information, drug therapy monitoring, and pharmacokinetic consultations.

Outpatient Populations

- Clinics staffed by pharmacists with prescribing privileges, managing chronic psychiatric conditions including psychotic disorders, mood disorders, anxiety disorders, PTSD
