Psychiatry
Rebecca Graham, Pharm D BCPP
Melissa Shiner PharmD, MPH, BCPS, CGP, BCPP, MHA

In Patient Pharmacy
Our pharmacy staff come from a variety of educational backgrounds. Our staff have attended many different schools of pharmacy across multiple States. Eight of our pharmacists are Board Certified Pharmacotherapy Specialists. Fifteen of our pharmacists have completed PGY1 residencies and four of our pharmacists have completed PGY2 training. The diverse educational backgrounds of our pharmacists provide residents with multiple teaching and practice styles. We have pharmacist-run disease state management clinics for anticoagulation, diabetes, hyperlipidemia, hepatitis C and pain management. Pharmacists round with the medical teams in our Surgical Intensive Care Unit, Medical Intensive Care Unit and with the International Medicine teams. PVAMC utilizes technology to realize our pharmacy’s mission to promote safe and effective medication use. The VA uses a computerized patient record and order entry system. To assist in prescription filling, PVAMC utilizes the ScriptPro automated prescription filling system. Our dedicated staff and computerized pharmacy resource systems allow us to meet our mission statement and provide excellent patient care.
