Goals of Residency Program

The PGY1 Pharmacy Residency Program is a one year post-graduate program designed to provide the resident with the knowledge, expertise, skills, and abilities required in pharmacy practice to provide quality pharmaceutical care. In addition, the program is designed to provide the resident with effective communication skills, foster development of clinical pharmacy programs and services, and appreciate cost-effective formulary management strategies. The ultimate goal of the program is to enhance the resident’s competence and skills as a productive member of the healthcare team to facilitate safe medication use within a health care system.
