Cheyenne VA Pharmacy

The Cheyenne (CHY) VA takes a proactive approach to patient care. The pharmacist is a fully integrated member of the multidisciplinary team and is responsible for supporting patients from multiple angles.

Throughout the residency year you will gain invaluable experiences in a wide variety of required as well as elective rotations

Required Rotations:

- Pharmacy Informatics
- Outpatient and Inpatient Pharmacy
- Ambulatory Care
- Anticoagulation
- Internal Medicine

Elective Rotations:

- Up to 9 elective rotation options ranging from Academia to Cardiology, Critical Care, Mental Health or Oncology

Welcome to the Cheyenne VA Medical Center

I am so proud to have been a Cheyenne VA pharmacy resident! Providing care to today's Veteran population has been the most rewarding experience of my professional career. The opportunities available, allowed me to tailor my residency experience to my professional and personal interests and goals which led me into accepting a full time position at the CHYVAMC where I get to *Serve those who served.*

F. Allen Webb, III, PharmD 2015 PGY1 Resident, CHY Pharmacist

The PGY1 program at the Cheyenne VA is an ASHP Accredited pharmacy residency that builds upon knowledge, skills, attitudes, and abilities gained from an accredited professional pharmacy degree. Our program aims to enhance general competencies in managing medication-use systems and supports optimal medication therapy outcomes for patients within a broad range of settings.

Outline:

- 6 required **core** rotations
- 4 required **longitudinal** rotations
- 5 **elective** rotations
- 1 required resident project
- Attend ASHP Midyear and Mountain States Residency Conference
- Additionally, the CHY VA is in close proximity to the University of Wyoming and provides multiple IPPE and APPE opportunities for students—creating multiple teaching opportunities for residents.

With continued growth, our program is constantly evaluating and looking for opportunities in which to expand. Recently, the pharmacy department has expanded by 8 pharmacists. With nearly five of these being dedicated to our VA Patient Aligned Care Teams (PACT). We are VERY excited about the upcoming changes and opportunities these positions will create for residents, students and most importantly our Veterans.
