ETHEX Corporation declared today that it has voluntarily recalled at the retail level specific lots of multiple products that it markets. This is a second announcement made by the company within a week regarding lots that have been recalled as a precaution, due to the possibility that they may contain oversized tablets. Oversized tablets may contain more than the intended amount of the active drug ingredient, which could result in patients receiving as much as about twice the expected dosage of these drugs. The concern with oversized tablets in the affected lots relate to potential overdoses of the above agents. Specifically, codeine-containing products, doxazosin, and (potentially) buspirone can have serious or life-threatening consequences.

Per ETHEX, specific lot numbers of the products (see below) were distributed between March 2006 and May 2008. All remaining product with the affected lot numbers at the facility/CMOP level should be returned as instructed in the product recall documents below. The facilities are required to determine whether the affected lot numbers (refer to lot numbers and expiration dates provided below) were dispensed to the patient and if so, identify the patients who may have received the affected product and contact the patient by phone to provide instructions on how to obtain a new supply of medication and return the medication being recalled. In the event that patients are unable to be contacted by phone, providers should use the Patient Letter template (<http://vaww.national.cmop.va.gov/PBM/Other%20Documents%20and%20Resources/Rrecall%20Patient%20Letter%20Template.doc>) and insert drug-specific details and site-specific instructions on how to obtain a replacement supply of medication.

Patients should be advised to contact their Healthcare Provider or seek medical care if symptoms of an overdose develop. Any adverse reactions experienced with the use of these products may also be reported to the VA ADERS program.

Further details regarding this urgent product recall can be found in the attached manufacturer notifications.

URGENT: Drug Recall (Retail Level)

REASON:

The manufacturer of the items listed on page one of this notification has voluntarily issued this recall, specified lot numbers only, due to the possibility they may contain oversized tablets.

LEVEL:

This recall is to the retail level.

CLASS:

This recall has not been classified. No additional notification will be given if this is classified as either a Class II or a Class III since the return information will be the same. The only update you will receive is if this is upgraded to a Class I.

ACTION:

Please examine your inventory to verify if you have any of the specified lots on hand. If so, immediately cease distribution/use of this product and remove it from your shelves. The product must be returned within 30 days, to the following address: **Henry Schein, Inc., 41 Weaver Road, Denver, PA 17517**. Please clearly mark the carton **Recall Material Enclosed**. Your account will be credited accordingly for product, shipping and handling.

Only returns of the above noted recalled lot numbers purchased from Henry Schein, Inc. will be credited to your account. In order to expedite your credit, please send a copy of your invoice if available.

OTHER INFORMATION:

If you have any questions regarding this matter, please contact Ethex Corporation at 800-748-1472

We apologize for any inconvenience and thank you for your immediate attention to this matter.

Sincerely,

Peter Schmidt
Recall Coordinator
